Link up Clydesdale

A petition to Karen Gillon MSP

Plans are underway to run a new rail service between Edinburgh and Glasgow from 2014. Clydesdale needs better links to the East to support employment and tourism opportunities but to date the Scottish Government will not commit to these services stopping at Carluke and Carstairs.

Help me to secure these much needed rail services for our local area.

"We the undersigned call on the Scottish Government to ensure that the proposed 2014 Glasgow-Edinburgh rail service stops at Carluke and Carstairs stations to support economic and social development and tourism in the Clydesdale constituency."
